

SC 305

Forming Separating and Mixing Components

SC 305 Overview

- Space-saving machine design for the production of small workpieces
- Programmable additional units for fast and repeatable production adjustments
- Easy accessibility to all machine elements
- Fourfold tool turret optional

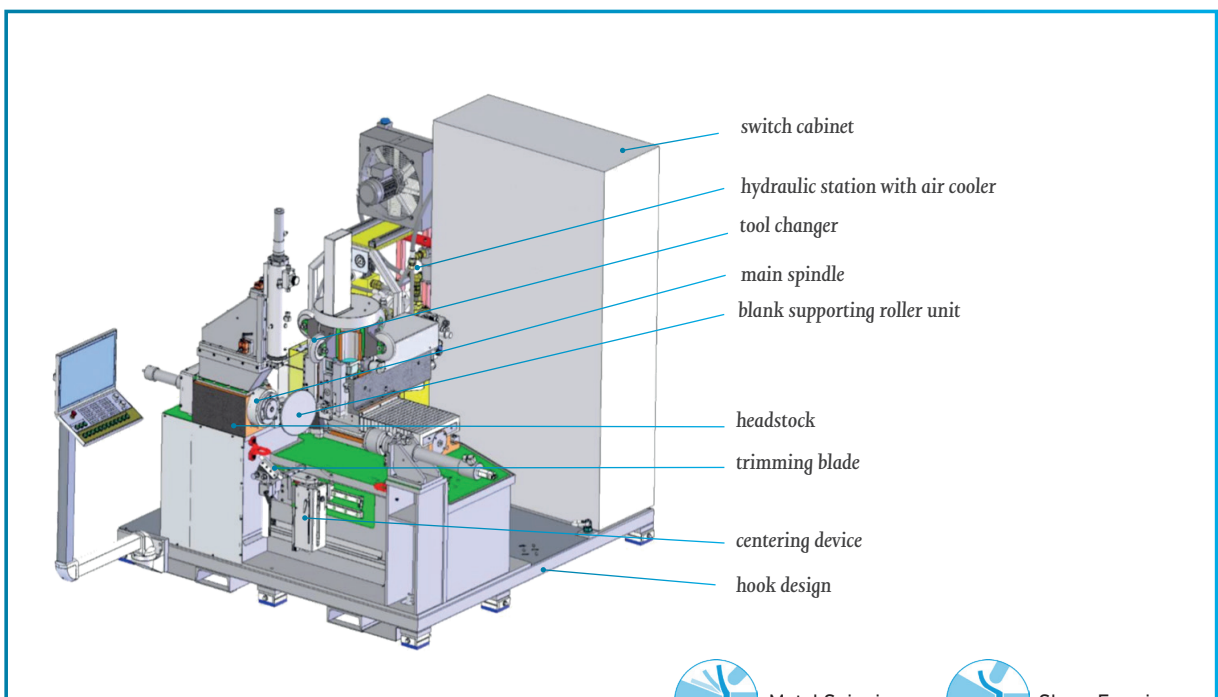

SC 305

Innovative concept, efficient machine

Technical Data

Blank-Ø, max. ca.	500 mm
Distance between centres	700 mm
Wall thickness max.	
So - Alu, ca.	3 mm
So - St, ca.	2 mm
So - Niro, ca.	1,5 mm

Metal Spinning

Shear Forming
